CALL TODAY FOR A DEMO! Available for Rent or Purchase.

Somero
SMP

The PowerRake is a milestone in concrete raking.

It's a revolutionary new tool that takes the grunt effort out of placing concrete or grading fine-granular materials. It's a 4 wheel drive, ride-on, hydraulic powered concrete grading machine and it's so easy to operate that your crew will be proficient with it in minutes.

Somero
Copperhead®XD™3.0

The CopperHead®XD uses Somero's patented laser leveling technology to cut the concrete to a finished grade, screed it flat, and vibrate it smooth in one pass. You will be able to work faster because the CopperHead XD sets grade automatically, allowing the operator to move quickly and efficiently through the work area.
